simple yet engaging, and the idea - while completely bizarre - is completely original and unprecedented. The graphic style is also very interesting and simple, but nevertheless, it still delivers all the message needed for a player. It's also very concise and well thought-out. Simple controls and gameplay make it great for kids. 8yo comment: It's really really funny and it's a very interesting game. And try not to lose your makers! 7yo comment: BUILD!
